

VMware Skyline Task Force

Diagnose potential issues and prevent outages at this free workshop

A VMware task force consisting of vExperts, VMware User Group (VMUG) leaders, CTO Ambassadors, VMware Skyline experts, and other subject matter experts hosts free VMware Skyline workshops remotely for any VMware customer interested in or already using VMware Skyline. VMware Skyline helps keep you out of harm's way by reducing downtime and mitigating security vulnerabilities in your VMware data centers.

Our mission is to enable customers to understand the value of VMware Skyline, assist in deployment, and provide expert tips to help customers get the most out of this proactive software-as-a-service (SaaS) offering.

[Auto-schedule your free VMware Skyline workshop with a VMware expert.](#)

The task force will provide free workshops to:

- Customers not yet using VMware Skyline – We will help install VMware Skyline and ensure you understand how to benefit from this service, including how to remediate findings.
- Customers already using VMware Skyline – We will explore the full functionality of VMware Skyline with you to ensure you're getting maximum value from the service.

This free workshop is intended for VMware customers of any size to utilize VMware Skyline as part of their existing Production, Premier or VMware Success 360™ support agreements.

Please email skylinetaskforce@vmware.com for assistance or to request a workshop using your own meeting tools.
